Objective:-

Highly motivated and detail-oriented **Bachelor of Computer Applications (BCA) student** with hands-on experience in **full-stack web development** and **software programming**. Seeking a **Graduate Trainee** or **Technical Support role** to leverage my expertise in **HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and the MERN stack**. Passionate about **developing scalable applications, enhancing user experience, and problem-solving**

Education:-

Bachelor of Computer Applications (BCA) **2022 - 2025**
Saraswati Higher Education & Technical (SHEAT) Group of Institutions, Varanasi, Uttar Pradesh
Affiliated with Mahatma Gandhi Kashi Vidyapith University

Technical Skills:-

Frontend Development: HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React.js, Responsive Web Design
Backend Development: Node.js, Express.js, RESTful API Development
Programming Languages: C, C++, Core Java, javaScript
Databases: MySQL, MongoDB (CRUD Operations)
Version Control & Development Tools: Git, GitHub, Postman,
AI & Developer Productivity Tools: ChatGPT, GitHub Copilot, DeepSeek, Grok, Gemini, Claude AI
Code Editor: Visual Studio Code,
UI/UX & Design Tools: Figma, Canva
Productivity Tools: MS Word, MS Excel, MS PowerPoint
Operating Systems: Windows 11

Core Concepts:-

Data Structures & Algorithms (Basics)
Database Management System (DBMS)
Operating Systems (Basics)
Computer Networks (Basics)

Projects:-

Paradise Nursery – Shopping Application
GitHub: https://github.com/Prahlad800/Paradise-Nursery-Shopping-Application
Live: https://shopping-prahlad-web.vercel.app
Tech Stack: React.js, Redux Toolkit, React Router, Vite, CSS3
Developed a responsive e-commerce web application for browsing and purchasing indoor and medicinal plants. Implemented real-time product , centralized state management using Redux Toolkit, dynamic cart functionality, and multi-page routing with React Router. Deployed the application on GitHub Pages with optimized Vite configuration.

- Implemented Add to Cart, Remove, and Quantity Management using Redux
- reusable components for scalable frontend architecture
- Integrated dynamic order confirmation page with route-based data transfer
- Ensured responsive UI with modern CSS styling and animations

Taskify – MERN Stack Todo App
GitHub: https://github.com/Prahlad800/taskify
Live: https://taskify-notes-task.vercel.app
Tech Stack: MongoDB • Express.js • React.js • Node.js • Mongoose • JWT • Axios • CSS3
Developed a full-stack task management application using the MERN stack, enabling users to create, update, and manage tasks efficiently. Implemented JWT-based authentication, RESTful APIs, and nested task structures. Integrated priority levels, completion tracking, and a responsive React-based UI for seamless user experience across devices.

- Developed a full-stack task management application using **MongoDB, Express.js, React.js, and Node.js (MERN Stack)** with secure **JWT-based authentication**
- Designed and integrated **RESTful APIs** for task creation, updating, deletion, and retrieval with **nested task structures** using Mongoose
- Implemented core features including **priority levels, task completion tracking (completedAt), and important flagging**
- Built a **responsive React-based UI** and handled seamless frontend–backend communication using **Axios**

Prahlad Portfolio – Personal Portfolio Website
GitHub: https://github.com/Prahlad800/prahlad-portfolio
Live: https://prahlad-portfolio123.vercel.app
Tech Stack: React.js • Tailwind CSS • Framer Motion • Node.js • Express.js • Nodemailer • Axios
Developed a modern, responsive personal portfolio website to showcase projects, technical skills, and web development experience with smooth UI animations and full-stack contact functionality.

- Developed a responsive portfolio using React.js and Tailwind CSS with modern UI design
- Implemented smooth animations using Framer Motion to enhance user experience
- Built full-stack contact functionality using Node.js, Express.js, and Nodemailer

Experience:-

Self-Driven Full Stack Developer | 2025 – Present

- Built and deployed full-stack web applications independently
- Implemented authentication systems, REST APIs, and database integration
- Gained practical experience in real-world project development and deployment

Certifications:-

- Developing Back-End Apps with Node.js & Express – IBM *(Mar 2026)* | ID: 4H5Y91UPG7HP
- Getting Started with Git & GitHub – IBM *(Mar 2026)* | ID: LYEJYLVU52PV
- Developing Front-End Apps with React – IBM *(Feb 2026)* | ID: 6AIB0V5R90WL
- Introduction to HTML, CSS & JavaScript – IBM *(Jan 2026)* | ID: B37BH7W3VDOF

Languages:-

- English (Basic Working Proficiency)
- Hindi (Native Proficiency)
